

What Is Being Done?

The Michigan Department of Transportation (MDOT) investing \$465,000 to remove and replace 0.25 miles of mainline pavement on M-46 from 2nd Street to Lewis Street in the Village of Edmore. This is part of a \$4.15 million corridor upgrade of nearly 16 miles of M-46 at various locations from Amble Road to Lewis Street in Montcalm County. This project also includes cold milling and resurfacing of the parking lanes.

How Will Traffic Be Affected?

One lane in each direction will be maintained through the Village of Edmore. Parking along M-46 will not be permitted during construction. On the other portion of M-46, one lane of alternating traffic will be maintained using flag control.

When Will this Be Done?

Construction will begin in early May. All work between 2nd Street and Lewis Street through Edmore will be completed by mid-June. Construction on the entire M-46 corridor will begin in early May and continue through mid-October.

Long-term Benefits

This project, which is included in Gov. Granholm's Preserve First strategy, is expected to last for approximately 20 years. It is part of MDOT's initiative to have 90 percent of state roads in good condition by 2007.

MDOT is responsible for the preservation, maintenance and operation of 9,716 miles of state trunkline (M, US and I routes) and 4,400 state highway bridges. This essential network moves people, goods and services across the state and across international borders. MDOT is focused on building and managing a safe, efficient transportation system that creates jobs, relieves congestion, supports tourism, improves quality of life and grows Michigan's economy.

How Will We Keep Motorists Informed?

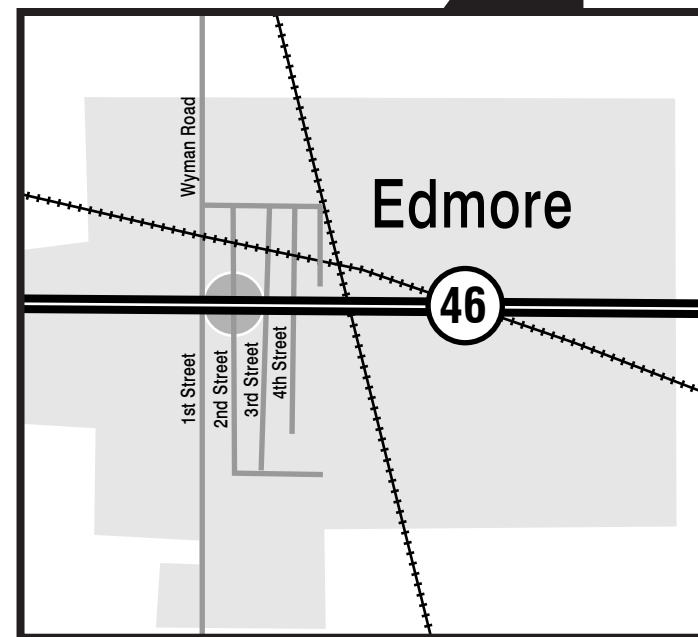

MDOT is committed to keeping motorists informed regarding the most current and future lane closures, detour routes, and project updates. Lane closure information is available around-the-clock on MDOT's Web site at: www.michigan.gov/mdot or call MDOT's Road Repair Hotline at 616-482-PAVE.
